

CSE-101 Class 2 Notes

CSE 101 - Class 2

Mix little truth in with lies

Rat poison

Proverbs 23:29,30

"Who hath woe? who hath sorrow?... They that tarry long at the wine;..."

Greek 1 word for wine

English - juice - wine - fermented juice - fermented wine

Good science in textbooks - little of poison

Six meanings of evolution 1. Cosmic - BB - Big mess - Origin of time space mater

2. Chemical - hydrogen + helium - usually decay not increase - Radium>lead Potassium>Argon

3. Stellar + Planetary

4. Organic - Takes intelligence to make life

5. Macro - Arrival of kinds

6. Micro - Variations within kinds - Speciation

1-5 are Religious

6 is Science

Bacteria resistance

Roach resistance

Billions of years turns Fantasy into Reality

Give rock a pill to turn into dog

Thermodynamics

1. Mater can not be created or destroyed

Mater to energy = huge losses - Irretrievable loss of energy

Engine 30% efficient

Everything loosing heat - Cold universe death - not closed system

What started it all?

Either God made it or it made its self

Atheist -

Theist - which God, Why?

Were not here - we think we are

Humanist Manifesto 1933

1st plank - Universe self existing - not created

Humanist Manifesto 2 1973

Signer John Dewey - leader of teachers college

Produced college leaders

CSE-101 Class 2 Notes

Produced Humanist teachers
Infiltrate school system
How universe created its self
BB Theory
Bunches of nothings exploded - created galaxies
1 dot exploded - Given characteristics of God
Nebula Hypothesis - Dust clouds closer + closer - tighter + tighter - starts to spin

Everything spins

"Most astronomers believe"
Becomes truth by majority opinion
"Everyone knows ford better than Chevy"
Judgment call
Tell kids and they will believe you

Chart
6000 YA - Creation
4400 YA - Flood
2000 YA - Jesus
Today
20 BYA - BB - nothing exploded - where did it come from
4.6 BYA - Earth cools
3.6 BYA - Life forms

Universe - Single spoken sentence
When God speaks - waters clam - wind dies down - dead come alive
Everything obeys God - Except us

BB Size
Began - 700,000 LY
10yr Later - 10,000 LY
20yr Ago - dot
now - Nothing

Closed Universe
BB occurs every 80-100 BY
Mater came from previous BB
Hindu - gods came from previous gods
Mormon - As I am God once was, As God is I will once be.

Big lie more likely to believe
Kids - I am nothing but dirt and chemicals
Columbine - Natural selection shirt

Atheist said - I am god of my own universe

Might makes right

CSE-101 Class 2 Notes

Get rid of God
Stallen - Marks - Hitler
Communism - Marxism - Nazism
Man is king of the universe
Humanism needs evolution
DEIFY - Ye shall be as God's

"All teachers believe in communism" Soviet Russia
Scientists loose their job if they are creationists
Robert Gentry - Renowned nuclear physicist - waste
Published until found he was creationist

Name a scientific advance due to evolution
Plastic - space ship - computers
What good has it done?

Creationists look for reasons for intelligent design
Murry discovered "paths in the sea" Psalm 8:8
Saved billions
Blood letting "Life of flesh in the blood" Leviticus 17:11
MRI - creationist (not considered scientist?)

Where did mater - energy - laws come from
Law of gravity - what is gravity - how does it know you are there
Law of inertia
Law of Centrifugal force
Hundreds of forces

Mater + energy where did they come from
Interchangeable with great losses

Retro motion problem
Merry go round example
Conservation of angular momentum
Venus, Uranus, maybe Pluto
6 of 63 moons
Saturn + Neptune moons diff dir same time

"the heavens shall pass away with a great noise" 2 Peter 3:10
Jehovah Witness - Earth last forever

BB - uniform mater -
Its not - clumpy

2nd Law of Thermodynamics
Everything tends to disorder
Women spend hour to look "natural"
Entire sections of stores to overcome 2nd law

CSE-101 Class 2 Notes

Everyone has a job due to 2nd law
Work to maintain
