

## CSE-103 Class 9 Notes

### CSE 103 - Class 09

Jump frog  
4 legs - 80"  
3 legs - 70"  
2 legs - 60"  
1 leg - 50"  
no legs - 0"

#### OBSERVATION

The less legs a frog has the shorter it jumps

#### CONCLUSION

After removing the last leg the frog goes deaf

Good observation - Bad conclusion

Flies with larger wings in north - Darwin as fit as ever

#### Peppered moths - Fake

found 2 moths on tree for entire 40 year study  
95% white 5% black pre industrial revolution  
5% white 95% black during industrial revolution  
95% white 5% black after industrial revolution

#### OBSERVATION

Population shifted from white to black and back again  
Moth population adapted to new environment

#### CONCLUSION

We all came from a rock  
God gave them the ability to survive no matter what environment they live in  
GM puts both AC and Heat in the same cars. - They have completely opposite purposes.  
Plan ahead = good design

#### Think Critically

Do you think humans are still evolving  
Have you stopped beating your wife yet  
assumes an answer  
How might have dinosaurs body heat problems lead to their extinction  
Assume they are extinct and had body heat problem  
Soviet style question  
Why is communism the best form of government  
Political poles ask question to get the answer they are looking for

#### Homology

Homo - same , ology - study of  
bio - life  
geo - earth  
structures are the same so they must have evolved from common ancestor  
radius ulna humerous

## CSE-103 Class 9 Notes

carpals phalanges fingers

Comparative anatomy - study of structures of different organisms

OBSERVATION

Birds + Horses + Humans share similar structure

They have a variation of a similar pattern

CONCLUSION

They have a common ancestor - jump frog jump

It was a good design - No machine as complicated and accurate as hand and arm

Development

BSCS Textbooks have most evolution

Christians busy in church and helping others while atheist's are lobbying congress and getting on text book selection committees. They have nothing better to do but write letters.

Similarity between developmental stages for all animals is what helped convince Darwin of evolution

FARM -

Fish

Amphibian - two lives - part in water - part on land

Reptile

Mammal

Embryology - Baby goes through the FARM stages in the womb

Gill pouches - folds of skin that turn into bones in the ear and glands in the neck - nothing to do with breathing just folds in the skin

Some people have four or five chins but can only breathe through the top one

Ernst Haeckel - 1860 - Embryology professor

University of Gena in Germany

In 1860 he read Darwin's book

1859 Russia still controlled by czar till 1917

Slavery still going on in America

Civil war started 1861

Darwin was racist "The Origin of Species : By Means of Natural Selection or The Preservation of Favored Races in the Struggle for Life"

Haeckel lived in Germany - White Aryan race

after 9 years of no one finding evidence for Darwin's theory he decided to take some drawings of a dog, salamander, fish, and human embryo 4 weeks after conception and altered them to look alike

Increased head size on human

changed eyes, ect

Made giant poster and traveled around Germany to promote evolution

"Ontogeny recapitulates phylogeny"

6 professors from the Gena university accused Haeckel of faking the drawings and held a trial and found him guilty of fraud

1874 the idea that humans have gill pouches was proved wrong

130 years later it is still in the textbooks

Arms and Camp - Biology - Journey into life

"By 7 months the fetus looks like a normal human baby but its not"

## CSE-103 Class 9 Notes

34% of babies born at 5 1/2 months survive  
they call it a fetus because they want to make you think it is not human  
Only reason is to justify abortion  
4500 babies killed every day  
Why does choice stop at birth  
Article in paper "Pro-Choice and Anti-Abortion demonstration"  
Media covers the 6 pro-choice but not the 1000 pro-life after Dr.'s shot in FL  
W.W.II if you shot the guards to save the Jews are you bad or good?  
If you kill the murderer (Dr.) is it bad or good?  
There should have been a trial and then the state should have executed him  
Columbine  
News jumped on gun control issue  
They broke 18 gun laws by going into the school another 5 would not have stopped them  
Should we have public schools?  
Should we teach kids evolution that teaches there is no right or wrong and no God  
Both Eric Harris and Dylan Klebold were atheists  
Father was geologist  
Eric's shirt read Natural Selection  
Shot Isaiah Shoels for being black  
Had Nazi cross on shirt

Should there be public executions  
Bible death penalty required 2 or 3 witnesses  
circumstantial evidence would mean life in prison  
Take your kid to a public execution and they won't do that crime  
France - some one was being taken to the guillotine and someone asked "do you think this will prevent someone from doing crime"  
they answered "it will for him"  
Should there be a law that requires every law abiding citizen to carry a gun  
Sign on store "No guns allowed"  
robber reads "Rob Me"  
Should have sign "All employees carry guns"

Government wont allow it because the One World Government doesn't want citizens that can defend them selves

Vladimir Lenin said "One person with a gun can control 100 people without guns"

Reasons given to kill children

1. Not Human
2. Not viable - can not survive on its own - neither can you naked on north pole - some kids still come home at age 25 for money
3. Unwanted - lots of kids alive are unwanted
4. Financial burden - every kid is a financial burden
5. Due to Rape or Incest - Kill the rapist Adopt the baby  
Women raped and keeps the baby - 5 years later has flash back of terrible event and kills the kid - Is it Murder?  
What if it is only 5 months?  
What about 5 minutes?

## **CSE-103 Class 9 Notes**

What about 5 minutes before its born?

Every one that supports abortion has already been born

6. Its legal

1956 in Germany the government wrote a law saying Jews were not human

it was legal to kill Jews

Hitler killed millions because he believed evolution

He tried to convince everyone the Jews were inferior

Offered to send the Jews to any country that would take them and Roosevelt refused to take them.

The immigration records for those years show average number of immigrants from every other country but almost no Jews being allowed into America

Hitler would let any Jew leave the country with only \$4 - Roosevelt said the Jews could only come into country if they had \$10000

Hitler's List

Blond Hair Blue Eyed Norwegian - Pure Aryan

Brown hair blue eyed (Less preferred Brown eyed) German - Mostly Aryan

Mediterranean - mostly Aryan

Slovak - Half Aryan Half Ape

Oriental - slightly Ape

African - mostly Ape

Jews - almost pure Ape

After the Jews the blacks were next

1938 Olympics held in Germany

Jessie Owen the black American athlete won the most gold medals

Hitler said his men should not have to race against this animal

Nuremberg Germany

Trial held for war criminals

they said they were only following orders and did nothing illegal

they were still convicted of murder

There is a higher law than German law or American law - Gods law

If you take an egg of an eagle and break it you will be fined and go to jail

if you kick a expecting mother in the stomach and the baby dies you may be sewed and put in jail

Revolutionary war - 25,000 killed

W.W.II - 400,000 killed

Abortions in USA - 38,000,000

World wide - 1,000,000,000

Average 1 per women

in Russia average 7 per women

even higher in china

If its not alive why is it growing

if it is not a human being what kind of being is it

Margaret Sanger in 1916 started Planned Parenthood

She was a racist and wanted to "weed out" blacks, Orientals, and Jews

## **CSE-103 Class 9 Notes**

wanted to use birth control to create a race of "through bread humans"

1952 - How to plan your children - pamphlet

What is planned parenthood?

Is it an operation - No

Is it an Abortion - Certainly not, abortion is an operation that kills the life of a baby after it has begun. It is dangerous to the mother and can leave you sterile.

Views have changed in past years
