

CSE-104 Class 5

Genesis 8:1

[1] And God remembered Noah, and every living thing, and all the cattle that was with him in the ark: and God made a wind to pass over the earth, and the waters asswaged;

Natural gas, coal, oil formed in the flood

Coal found at south pole

Asswaged - drop down - not move away

Flood consisted of - 40 days rain, 150 days water on earth, 150 days water running off.

Noah in the ark for 13 months

Genesis 8:3

[3] And the waters returned from off the earth continually: and after the end of the hundred and fifty days the waters were abated.

Waters returned continually - waves would still come up and down long distances onto the land after oceans had formed.

As the earth raised and oceans went down they would cause earthquakes and Tsunami's.

Unconformity - A surface between successive strata representing a missing interval in the geologic record of time, and produced either by an interruption in deposition or by the erosion of depositionally continuous strata followed by renewed deposition.

Layers going one direction then going another.

Grand Canyon has this in some places where large amount of water removed layers and then sediment was laid down in different directions including a volcanic layer.

When lava cools under water it forms pillow lava.

Mt Ararat is made of pillow lava - at one point it was completely under water.

Ark rested in the 7th month in the mountains of Ararat.

The waves that were returning on the earth continually could have moved the boat after it had landed.

Ron Wyatt theory that the boat landed and they cut off the drogue stones and then the boat got moved by a wave down into the valley.

Trees can plant themselves by having a seed deposit itself or a branch start to take root or for a floating tree to reattach itself to the ground and start growing.

Over next few hundred years the ice caps melted and retreated.

If you drop the oceans Vietnam and Australia are connected.

The entire world is connected.

Levels of the land are - Continental shelf, Continental Rise, and the abyss.

After the flood people would start building cities near the water and then the oceans would rise. City's are found under water all the time.

Some would follow the ice caps and hunt the buffalo that roamed.

They didn't carry tool boxes with them so they would make themselves stone tools.

Some tools they made quickly because they only needed them once and others have incredible detail.

Signs of ice being in North East Pennsylvania

Signs of Ice -

CSE-104 Class 5

Rounded mountains - drumlins

Kettle lakes formed by isostatic rebound

Water gets trapped in the ground because it has no water outlet.

MN full of lakes.(MN Land of 10000 lakes - WI has almost 15000 lakes)

Terminal moraine at end of glaciers

Lateral moraine at sides of glaciers

Matterhorn - glacier cut off both sides

Genesis 10:25

[25] And unto Eber were born two sons: the name of one was Peleg; for in his days was the earth divided; and his brother's name was Joktan.

Peleg - earth divided

Joktan - shortening

Peleg was born 100 years after the flood.

Noah and Shem out lived Peleg

What happened that shortened his life must have been genetic because everyone after him started dieing earlier.

Genesis 47:7-9

[7] And Joseph brought in Jacob his father, and set him before Pharaoh: and Jacob blessed Pharaoh.

[8] And Pharaoh said unto Jacob, How old art thou?

[9] And Jacob said unto Pharaoh, The days of the years of my pilgrimage are an hundred and thirty years: few and evil have the days of the years of my life been, and have not attained unto the days of the years of the life of my fathers in the days of their pilgrimage.

Jacob was considered old at 130 yet even he knew that he had lived a short life.

Shem, Arphaxad, Salem, and Eber could have all known Jacob

400 years is still not long enough to learn everything there is to know about everything.

Metallurgy, woodworking, botany, health, these are all lifetime subjects that you never stop learning.

If you lived 950 years like Noah you could have learned lots of things.

What it means that the earth was divided.

One theory

Languages were confused at Babel and the nations were spread out.

Nimrod built the tower of Babel but does not give a number of years in his genealogy however it is the same number of generations between Noah and Peleg and Nimrod.

Old testament gives Peleg's genealogy because he is the blood line of Christ.

When the languages were mixed that means the the person that knew how to fix your car now does not speak your language and the guy that knows what herbs heal what sickness lives in a different country.

Theory two

The continents were divided in the days of Peleg.

This is unlikely because if the continents moved a few inches everyone would die.

Theory three

Ice melted and the oceans rose and divided the continents

CSE-104 Class 5

Theory four

Land was surveyed and split up among the nations because there was a large amount of people

Theory three expanded

Cold water absorbs CO₂

Soda holds Carbon dioxide better when cold.

CO₂ is a greenhouse gas and protects us from radiation.

Increased radiation would increase genetic defects and also decrease lifespan.

Oceans got deeper and colder.

Dry Falls in Washington.

More water went over Dry Falls than every river in the world combined at once.

Now no water flows over the falls.

Ice melts would have formed huge lakes and when the lake breached its top it would quickly form canyons and waterfalls.

English channel only 150 ft deep.

Over 300 miles that is not that steep of a drop. Draw it on some graph paper.

There is a valley between Norway and Scotland that used to be a canyon that is now filled with water.

As the Atlantic ocean fills in it would backfill the Mediterranean Sea.

After the flood they would probably have lots of kids.

More kids means more help rebuilding.

If each family had 40 to 50 kids in the 400 years of their life then thousands of people would be on the earth in a few hundred years.

They would build city's and as the water came up they would get flooded.

Ancient Egyptian city found under 30 ft of water.

Lots of cities found under water.

The black sea would be the last to fill in from the overflow of the Mediterranean.

Years ago they found many city's 150 ft under the Black sea and said that is proof of the local flood of Noah.

Satan has twisted our minds to see canyons and fossils as signs of millions of years instead of a sign of how much God hates sin.

Limestone is responsive to acid.

Muriatic acid dissolves concrete.

Strip mines dig layers of coal out of the ground.

Coal is found in layer of coal, layer of rock, layer of coal, layer of rock, layer of coal, layer of rock, etc.

Picture of fish eating smaller fish.

Fish found buried in fear - scales pointed up

Fish can drown and suffocate.

Fish eating other fish before flood proof that animals were not vegetarian before the flood.

Fossils formed during and after flood not before.

Fish are not considered alive according to the biblical standard.

Insects are also not living - Adam steps on an ant is not considered killing another animal.

CSE-104 Class 5

Harry Truman - Lived on Mt St. Helens for 80 years and would not leave when the volcano was ready to erupt.

He died on the volcano and is still there probably under 100 feet of dirt.

Just like Harry Truman we were also given a warning about what to do with our lives.
The end of the world is coming - we should be out there telling the gospel.

Seminar 7

God wants us to learn, study, and be ready to give an answer.

1 Peter 3:15

[15] But sanctify the Lord God in your hearts: and be ready always to give an answer to every man that asketh you a reason of the hope that is in you with meekness and fear:

2 Timothy 2:5

[5] And if a man also strive for masteries, yet is he not crowned, except he strive lawfully.

Don't all scientists believe in evolution?

If your definition of a scientist is someone that believes in evolution than that is true.

Mormon - You can not achieve Godliness unless you are a Mormon.

Same with Jehovah Witnesses and most other religions.

John 7:40-49

[40] Many of the people therefore, when they heard this saying, said, Of a truth this is the Prophet.

[41] Others said, This is the Christ. But some said, Shall Christ come out of Galilee? [42] Hath not the scripture said, That Christ cometh of the seed of David, and out of the town of Bethlehem, where David was? [43] So there was a division among the people because of him. [44] And some of them would have taken him; but no man laid hands on him. [45] Then came the officers to the chief priests and Pharisees; and they said unto them, Why have ye not brought him? [46] The officers answered, Never man spake like this man. [47] Then answered them the Pharisees, Are ye also deceived? [48] Have any of the rulers or of the Pharisees believed on him? [49] But this people who knoweth not the law are cursed.

Many believed and many did not

Officers said "Never man spake like this man"

People were divided over a question of where he was born when that was not the right question.
Arguing about the wrong thing because they did not have knowledge.

Chief priests sent the officers instead of going themselves.

Professors will send students with a list of questions.

Officers "Never man spake like this man"

Students - he answered all the questions reasonably

Chief priests get mad and insult the officers.

Professors say "you should have then said XYZ".

CSE-104 Class 5

Then answered them the Pharisees, Are ye also deceived?
Are you dumb?

Have any of the rulers or of the Pharisees believed on him?
No scientists believe creation so it is not true.

Creationist work is never published in major science journals so therefore it is not scientific.
Anything that has a hint of creation or intelligent design gets kicked out.

Russia 15 years ago if a teacher stood up and said "I don't think communism works. I think capitalism is a better idea." He would be living in Siberia if he survived.
Communists then say "Communism must be a good idea because no one is speaking out against it."

Majority opinion means nothing to determine who is right or wrong.
Many scientists are creationists.

Robert Gentry lost his job at Oakridge National Laboratory because he became a creationist.
His job was to find safe places to store radioactive waste underground.
While looking at slices of granite he noticed radio polonium halos inside the granite.
He was published in all sorts of secular science journals until they realized that what he had found was proving that the big bang could not have happened.

Roger DeHart, hounded out of his job with the Burlington-Edison (Wash.) School District for daring to take a critical attitude toward Darwinian dogma and encouraging his students to do likewise.

Kevin Haley was a biology professor at Oregon Community College until the administration chose not to renew his contract. His only crime: to expose students to flaws in evolutionary theory.

William Dembski fired from Baylor University - large Baptist university - for advocating intelligent design.

Forrest Mims published in over 60 science journals but was denied a job at Scientific American because he was a creationist.

They turn away all creation articles and then ask as a proving question how many creationist are published in science journals.

Author of "Of Pandas and People" when he got saved they tried to fire him but because he was working there for 20 years and they could not fire him they demoted him to lab assistant, a job usually given to students.
He used to write the text books.

Evolutionists try using the law to fight creation.

[49] But this people who knoweth not the law are cursed.
"We are smart, You are dumb"

CSE-104 Class 5

Nicodemus at least went and thought about it before condemning Jesus.
There is more peer pressure in scientific circles than in a 7th grade class room.
Almost every branch of science was started by a creationist.

Separation of church and state.

There is no such thing in the constitution.

Amendment I

Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the government for a redress of grievances.

The term "separation of church and state" was found in a letter written by Thomas Jefferson to a baptist pastor Danbury in 1802.

The letter described the one way wall that kept the state out of churches and not the churches out of the state.

www.wallbuilders.com

The same day that they voted the 10 amendments into the constitution they also voted and approved \$500 to be sent to a Catholic priest to help the Indians in St. Louis.

These men were for the state helping churches and churches being involved in the state.

Many churches have given up their status of being churches and become 501(c)3 corporations and therefore are under the control of the government.
